HUGHES'S VIEWS ON QUESTIONS OF NATIONAL INTEREST

The attitude of Justice Hughes on questions of great public interest is given herewith. Which His Republicanism:

"We are all interested in the success of the Republican party. I have been a Republican from the time I came of age. I am grateful for the splendid services it has rendered to the country and for the memories of the noble men under whose leadership in repeated crises the party has proved itself equal to the task of preserving and administering the government. There is no political organization in this country which at this time has such an opportunity of serving the people by efficient administration and by wise constructive effort in the correction of known evils. The party has its future in its own keeping, and if it will measure up to its traditions and meet its opportunities it will for many years be invincible both in states and nation."

The tariff:

"I believe in a protective tariff. It is an established policy essential to the interests of our wage earners, in that it makes possible the payment of wages on the scale to which we are accustomed and thus maintains our American standards of living."

"But I do not believe in making this policy a cover for exorbitant rates or for obtaining special privileges for the government which are not based upon consideration of the general welfare. I believe that the tariff should be revised. And in order to effect whatever readjustment may be necessary to make the tariff schedule consistent with the principles underlying the protective policy, I favor the appointment of an expert commission, that the facts may be ascertained without delay and that congress may dispose of the matter in the fairest possible manner."

Enemies of our Republic:

"The unscrupulous, who have no sympathy with democratic ideals, and who by their abuse of the privileges obtained from the state and by their cynical indifference to public obligations, bring law and government into contempt; those who seek profit in unprincipled agitation. The second thrive upon the evils created by the first."

"Socialism is to him un-American; he does not favor government ownership of railroads, but he believes in effective regulation; the Sherman anti-trust bill he thought in 1903 should be cleared up and made more explicit; corporation offenders should be imprisoned, not fined."

What Public Office Means:

"To me public office means a burden of responsibility—a burden of incessant toil at times almost intolerable—which, under honorable conditions and at the command of the people, it may be a duty and even a pleasure to assume, but it is far from being an object of ambition. I have not sought nor shall I seek, directly or indirectly, to influence the selection or the vote of any delegate to any convention."

America First, From Justice Hughes's Speech in Washington, June 5, 1916:

"The flag is the symbol of our national unity, our national endeavor, of our national aspiration. It tells you of the sacrifice of brave men and women to what the ideal and honor of this nation have been dearer than life."

"It means America first; it means an undivided allegiance. It means America united, strong and efficient, equal to her tasks. It means that you cannot be saved by the valor and devotion of your ancestors; that to each generation comes its patriotic duty; and that upon your willingness to sacrifice and endure, as those before you have sacrificed and endured, rests the national hope."

"It speaks of equal rights; of the inspiration of free institutions extended and vindicated; of liberty under the law, intelligently conceived

and impartially administered. There is not a thread in it but scores self-indulgence, weakness, and rapacity."

Todd cottage. During their absence their house will be occupied by Dr. Elizabeth Todd and her family.

Governor and Mrs. Arthur Capper will leave Sunday, June 18, to attend the governors' convention in Salt Lake City. Governor Capper is visiting his niece, Miss Isabel Crawford. One of the events of the convention will be a trip through Yellowstone park.

Mrs. W. C. Ball and her children of Webb City, Mo., are visiting Mrs. Bessie Roberts, and Mrs. J. S. Dean. Mrs. H. C. Mulroy of Denver is visiting her mother, Mrs. A. B. Jettmore. Miss Ann Montgomery of Salina is visiting her mother, Mrs. J. P. Gutzman. Mrs. Harry Finley of Troy is visiting her sister, Mrs. George Hayden. Mrs. John Switzer and her children, Ruth and Joe, will leave soon for

MOTHERS AND DAUGHTERS OF KANSAS.

Altoona, Kan.—"It is with pleasure that I write you a testimonial of what I have learned from your Favorite Prescription. It has done for me and for my oldest daughter. In fact, I would not have my only boy if it had not been for Dr. Pierce's Favorite Prescription and Pleasant Pellets. I do recommend 'Favorite Prescription' to mothers who have girls just turning into womanhood. I gave it to my oldest daughter, and it worked like a charm. They are now stout healthy young ladies and I will always recommend this remedy to my friends and to all who suffer from female complaints."

"I am well pleased with the 'Medical Adviser' which I received."—Mrs. OLA KIKKEM, Altoona, Kan.

Mothers, if your daughters are weak, lack ambition, are troubled with headache, lassitude and are pale and listless, they need Dr. Pierce's Favorite Prescription. It is just what they need to surely bring the bloom of health to their cheeks and make them strong and healthy."
